

Sewell Story – April 2016

An Update from Micah, Beth and YWAM Upper Valley

The Woodsville House

We have an exciting advancement here. A couple months ago Beth's parents were able to buy a gigantic house in Woodsville, NH for the purpose of being a house for YWAM. It has three floors with a million rooms plus a basement, has another apartment connected, a couple garages and a huge fenced in back yard. In this picture you can see the smallest side of it.

Repairs and customizations are being made to get it ready to be a location for our future schools. There will be room for staff housing, student dorms, an office and even a classroom. Currently two families and a single staff have apartments inside it - Mike and Missie Anscob and kids, Sean and Kati Rose Weider and cats, and Corey Goodwin. They've already been able to do some connecting with neighbors and have used the house and back yard for larger get togethers. We've also begun having our staff meetings here.

Pray with us for the presence of the Lord to be continually filling and flowing out of this location. Pray for strength for Beth's parents who are doing most of the work of renovations. Pray for increased support for our families and the ministry as a whole to cover the costs of maintenance and rent.
